

Appendix 9

Serve Wisconsin Formula Program Grant Application Selection Process

Formula Program grant funding will be determined by considering the following criteria, some of which depend on the type of applicant.

Eligibility Policy

In order to be eligible for Formula Program grant funding through the Serve Wisconsin/Wisconsin National and Community Service Board, an applicant organization shall be one of the following at the time of application for a Formula Program grant grant:

1. one of the following if its governing body operates within the state of Wisconsin:
 - a. a federally recognized Indian tribe,
 - b. a public or private nonprofit organization (organized as a tax-exempt entity under the federal IRS Code, including religious organizations and labor organizations), or
 - c. an institution of higher education as defined in Wisconsin Statute 118.55(1).

or

2. Wisconsin state or local government entity.

The only exception to this policy would be for an annual Formula Program grant process in which all other possible Formula Program grant funding options have been considered and Formula Program grant funding remains unallocated. In cases where Formula Program grant funds would otherwise remain unallocated, those funds could be provided to an entity that does not meet the requirements of this Eligibility Policy.

AmeriCorps Considerations

In accordance with [45 CFR §2522.475](#), the following will be considered:

- The innovative aspects of the national service program, and the feasibility of replicating the program.
- The sustainability of the national service program.
- The quality of the leadership of the national service program, the past performance of the program, and the extent to which the program builds on existing programs.
- The extent to which participants of the national service program are recruited from among residents of the communities in which projects are to be conducted, and the extent to which

participants and community residents are involved in the design, leadership, and operation of the program.

- The extent to which projects would be conducted in one of the areas listed in [§2522.450\(c\)](#):
 - A community designated as an empowerment zone or redevelopment area, targeted for social economic incentives, or otherwise identifiable as having high concentrations of low-income people;
 - An area that is environmentally distressed, as demonstrated by Federal and State data;
 - An area adversely affected by Federal actions related to managing Federal lands that result in significant regional job losses and economic dislocation;
 - An area adversely affected by reductions in defense spending or the closure or realignment of military installation;
 - An area that has an unemployment rate greater than the national average unemployment for the most recent 12 months for which State or Federal data are available.

New Programs

New programs are defined as programs that have not received AmeriCorps funding through Serve Wisconsin in the past three years. All other programs are considered Existing. New programs will not have performance data for consideration.

- Average Application Score
- Fit in Wisconsin's Formula Program grant Portfolio, including but not limited to:
 - Program Location
 - Program Focus
 - Cost Efficiency
 - Staff Capacity
 - Public or Private non-profit registered in Wisconsin

Existing Programs

Performance Selection Criteria

Existing Programs

- Performance criteria (up to 3 years of data may be considered, if available)
 - Enrollment Rate
 - Retention Rate
 - 30-day exit compliance
 - Performance Measures - Percent of Target Achieved
 - Timely reporting
- Fit in Wisconsin's Formula Program grant Portfolio, including but not limited to:
 - Program Location

- Program Focus
- Cost Efficiency
- Staff Capacity
- Public or Private non-profit registered in Wisconsin
- Average Application Scores will be presented; however, a ranking by Average Application Scores alone will not be presented for Existing programs

Minimum performance score of 80% of total points possible is required. Reaching the 80% minimum shall be inclusive of rounding to two places after the decimal point; therefore, a performance scoring percentage of 79.50% or above shall be considered to have met the 80% or above requirement.

An application for a program that has a performance score of less than 80% of total points possible shall not be eligible for Formula Program grant funding, unless the Board decides to waive the 80% requirement based on evidence of a corrective action plan to include benchmarks and associated milestones. An exception to the 80% minimum shall apply to applicants proposing a new and not previously funded AmeriCorps project, and shall apply for the first three years the new-not previously funded project is funded. The exception for such new projects shall not preclude use of other criteria to determine appropriateness of funding such new projects.

All Applicants/Programs

Additionally for Existing and New Programs

- The ranking of organizations that are approximately equal will be affected by:
 1. Youth Corps priority: The Board’s interpretation is that, if two applicants are approximately equal in performance, the youth corps program would be given priority.
 2. Compliance issues: Depending on the severity and status of the compliance issue(s), this may cause an organization to be ranked lower than another. When considering compliance, the Board may take into consideration program/member attendance at statewide member events.
 - Consideration may be given to the application’s stated number of leveraged volunteers per MSY.
 - Formula Program grant funding criteria will generally be used to make supplemental Formula Program grant funding decisions.

Continuation Formula Funding

Formula Program grant programs that have been awarded a Formula Program grant may choose to apply for up to two additional years of Continuation Formula Program grant funding, for a maximum of three consecutive years of Formula Program grant funding. After applying for three years of Formula Program grant funding, programs are required to apply for Competitive Program grant funding.

However, Formula Program grantees are not required to apply for second and third year Continuation Formula Program grant funding and can choose to apply for Competitive Program grant funding instead of applying for a second or third year of Continuation Formula Program grant funding.

Other ConsiderationsWhen Formula Program grant funding requests exceed Formula Program grant funding resources, applicants submitting a request for a grant amount totaling 20 multiplied by the Wisconsin State Maximum Cost per MSY, or greater, may have their award amount considered at the level of 20 multiplied by the Wisconsin State Maximum Cost per MSY. The Board shall have discretion to increase or decrease the total amount awarded to an applicant based on availability of allocable funds and other considerations.

Applications requesting a funding level greater than the cap amount and with performance scoring percentage of 98% or greater may be considered for funding above the cap up to the lesser of their requested amount for 2024-2025 or their awarded amount for 2023-2024; expansions are excluded.

Option to recommend a Formula Program grant application be considered as a Planning Grant: After reviewing an eligible proposal, Serve Wisconsin staff may recommend to the Board that an application, regardless of peer review and the performance scoring evaluation, be considered as a Planning Grant application, if staff determines that the organization needs more time to prepare in order to operate a successful new AmeriCorps program.
